

Espace ULYS

The Espace Ulys was created in 2014 as a means of supporting the incoming mobility of international talent to the [Université de Lyon](#).

Espace Ulys is first and foremost a convivial and ever attentive multilingual team dedicated to welcoming foreign scientists and their families to the Lyon-Saint-Étienne area. We provide day-to-day assistance for all measures and procedures relative to preparing your arrival and enjoying a pleasant, successful stay. We also organize regular get-togethers to facilitate your integration and help you settle in to your new life here in Lyon or Saint-Étienne.
