

Chirine GHEDIRA ép. GUEGAN

chirine.ghedira-guegan@univ-lyon3.fr

iaelyon School of Management, Université Jean Moulin Lyon 3

1C avenue des Frères Lumière ■ CS 78242 ■ 69372 Lyon cedex 08 -

AREA(S) OF EXPERTISE:

Intelligent data integration and management, Privacy, Distributed Information Systems for decision making,
Intelligent Services, Security and Quality of Service, Cloud Computing
Application to the health and environment fields

Short Biography

Chirine Ghedira Guegan is a full Professor of Computer Science at IAE Lyon School of Management, University Jean-Moulin Lyon 3, where she is President of the Computer Science-Mathematics Expert Committee and Head of the Master's Degree in Information Systems Management since 2011. She is deputy head of the Service Oriented Computing (SOC) research team and member of the scientific council of the LIRIS UMR 5205 laboratory of the CNRS. She led the Information System research group of the Magellan Center from 2011 to 2015. She is correspondent, board member and member of the thesis committee of the InfoMaths doctoral school at the University of Lyon3. Her research focuses on addressing the needs of access and integration of data and services by ensuring confidentiality, security and trust in today distributed environments. She is the author of more 100+ publications in internationally recognized journals and congresses. She is the coordinator of several research projects and an external expert among others for the Natural Sciences and Engineering Research Council of Canada.

Professional experience

- 2011 - **Full professor of Computer Science**, iaelyon School of Management - University Jean Moulin Lyon3
- 2008 - 2011 Associate-Professor in the IT department IUT Villeurbanne – Univ Lyon 1
- 2003- 2008 Associate-Professor in the IT department IUT Bourg-en-Bresse – Univ Lyon 1

University degrees and diplomas

- Dec. 2010 **Habilitation thesis to supervise research**, Univ Lyon 1. « Des services web élémentaires à la composition de services pour les Systèmes d'Information distribués et étendus »
- Nov. 2002 **PhD in Computer Science and Information for the Society**, specialty: Multimedia Documents, Pictures and Communicating Information Systems - INSA Lyon
- Juin 1998 **Master in Manufacturing Engineering**, specialty: Economic organization and computer engineering for the company - INSA Lyon

Key Responsibilities & Functions

- 2018/2021 **Responsible of the Research development** at IAELyon - school of Management
- Feb 2018 - **Member of the board of directors** of the IAELyon - school of Management
- Janv 2016 - **Co-head of Service Oriented Computing research team** at LIRIS-CNRS Laboratory
- Nov 2011 - **President of the Committee of Experts** in Computer Science & Mathematics in Lyon3 university
- Sept 2014 - **Member of the board of the doctoral school** n°512 InfoMaths in Lyon3 University
- Mai 2012 - **Coordinator of the Master "Management of Information System"** of IAELyon - school of Management – Lyon 3 University, in charge of managing the Master's degree and drafting the HCERES evaluation and accreditation files.
- September 2024 - **Creation of a new Master 2 - "Human & System Intelligence" - to be launched in.**

Jan 2021 - **Member of the “Parité Homme Femme” committee** at LIRIS-CNRS Laboratory
2012/2015 **Head** of the « Information systems » research group at MAGELLAN Center – Lyon 3 University

Research Teams: Service Oriented Computing team @ LIRIS–CNRS (UMR 5205) Laboratory of Image Informatics and Information Systems (<https://liris.cnrs.fr/equipe/soc>)

Research Activities

Research Interests: application domains of the research: health & environment

- Intelligent Data integration, management and privacy in new environments and contexts: Clouds, IoT & Big data
- Smart services, Adaptive distributed decision systems
- Service Oriented Computing: Data services, security, quality, contextualization, adaptation;
- Security governance, blockchain technology and business process in Cloud Computing;

Publications **100+ publications** including 27 international journals with reading committees. **H-index 22. I10-index 44.**

Coordination of Projects and Grants

1. Project Region ARA (2018 – 2022). Multi-Cloud Service for Intelligent Integration of Mass Heterogeneous Data Driven by SLA Contracts for Multi-Device Environments. Region funding for industrial projects (200K€). Partners: Labo LIRIS, University Lyon 3, Labo LIG, IMAG, DataMedCare (Industriel).
2. Project Region ARA (2017 – 2021). PersoDiagMedi - Semantic Web Services Oriented Platform for Medical Service Customization and Early Detection of Emerging Diseases. Region funding for international projects (60K€). Partners : LIRIS – Univ Lyon3, Laboratoire Parcours santé systémique (P2S) - University Lyon1, l’Observatoire National des Maladies Nouvelles et Émergentes maladies infectieuses - Tunis, Laboratoire RIADI - Université de la Manouba - Tunis.
3. Project IA (2019 – 2022). Service-based approach and intelligent agents for prediction and crisis management: Application to the analysis and management of emerging diseases. Funding: Research Contract IADOC. 105K€
4. Project PhC – UTIQUE (2016 – 2020). Restful Service-Oriented Platform for Predicting Natural Disasters. Hubert Curien Programme Utique, bi-lateral international collaboration France – Tunisia. (30K€)
5. Investissement Avenir Smart Electrique Lyon (2013 – 2017). Project on the privacy of Big Data collected from smart grids. Collaboration with the Lyon3 private law team and with the support of the LABEX IMU. National Grant. (65K€)
6. Project ARC6 Rhône-Alpes region (2014 – 2017). SLA guided data integration in clouds. Regional grant. (96K€)
7. Project ANR ARPEGE program (2009 – 2013). PAIRSE: Privacy Preserving Data Sharing in P2P Environment: A Web Service-based Approach. National Grant. (192K€)

Project as a partner, coordinator of a workpackage:

1. Project Region ARA (2021 – 2024). **CLEAN4SED:** Continuous LEArning and Neuroevolution for Supporting Edge Devices and predictive maintenance. Region funding for industrial projects (200K€). Partners: Labo ERIC, University Lyon 1, Labo LIRIS, University Lyon 3, Data Intelligence Team of laboratoire Hubert Curien, WITEKIO (Industrial).
2. Project PBI WASAS (2022 – 2025): « Witekio Advanced Security Accelerator Suite (WASAS) ». Solution clé en main pour le développement, la mise en œuvre et la gestion de solutions IOT sécurisées. Partners: Labo ERIC, University Lyon 1, Labo LIRIS, University Lyon 3, Data Intelligence Team of laboratoire Hubert Curien, WITEKIO (Industrial).
3. Project Emergence Program 2020 (2020 – 2022): **MuSE-MED:** Multi-objective, Socio-Economic and blockchain-based services for Medicines’ Traceability. Emergence Program: The Paris Seine Initiative – Scientific Excellence and internationalization. Partners (France – Slovenia): LIRIS - équipe SOC (CNRS UMR 5205), ETIS (CNRS UMR 8051) Université de Cergy-Pontoise (Porteur), University of Ljubljana - Slovenia.

4. Project International Cluster 2021 (2020 - 2022): Responding to the Covid-19 Public Health Impact in UAE: An Intelligent Data Fusion Model and Predictive Analysis for Proactive and effective response, leveraging Semantic Technologies and Artificial intelligence. Partners : Zayed University - UAE, LIRIS - équipe SOC (CNRS UMR 5205) - France, University of Toronto – Canada, St. Joseph's Health Centre Toronto – Canada, Staffordshire University – UK, Johns Hopkins Medicine – UAE.
5. Project ANR PRCI – Taiwan (2018 – 2020): **uPrivacy**: Enabling End-Users to Protect their Privacy by themselves. Application to Smart Healthcare Cyber-Physical Environments. Partners: LIRIS, Franche-Comté University, Paris Dauphine University, National Taiwan University, National Chung Hsing University, Feng Chia University.

Supervision and expertise:

- Supervision of 13 doctoral theses since 2007, 35 Master internships (2nd year of Masters) and 45 Master internships (1st year of Masters).
- Membership of more than 40 international conference program committees;

Reading Committees / Editorial Committees

- IEEE Transactions on Services Computing
- IEEE Transactions on Knowledge and Data Engineering
- Future Generation Computer Systems
- The Data & Knowledge Engineering Journal.
- International Journal of Systems and Service-Oriented Engineering
- Journal of Data and Information Quality.
- World Wide Web Journal

Academic Associations

- Member of KGA - Knowledge Graph Alliance for semantic knowledge graphs - <https://www.kg-alliance.org/> (since December 2023)
- Member of the Research Data Alliance (RDA - <https://www.rd-alliance.org>), of RDA-France-Santé group, and Blockchain Applications in Health Working Group (<https://www.rd-alliance.org/groups/blockchain-applications-health-wg> //<https://www.rd-alliance.org/users/chirine-ghedira-guegan>)
- Member of the FinES Cluster -Future Internet Enterprise System. (since 2010).
- Member of GDR (Research Group) Cloud Computing for resource management and cloud computing services (since 2010).

Project Expertise Activity:

- Evaluation of projects under the ECOS NORD programme for scientific and academic cooperation with Spanish-speaking Latin America (since 2022).
- Expertise at the PANELFIT learning event, a research project under the Horizon 2020 programme, on the new European data protection regulation (2021).
- External project expert for Naif University for Security Sciences (NAUSS) for the Security and Cybercrimes Research Program grants (2020)
- Evaluator of graduation applications for Al-Hussein Bin Talal University, Jordan (since 2017)
- Natural Sciences and Engineering Research Council of Canada (NSERC) external project expert for Discovery Program research grants (since 2016).

International Collaborations

Austria: University of Vienna. Collaborative project on composition and contextual mediation of web services in progress. Visiting researcher one month and collaboration with the VitaLab laboratory for a duration of 6 months.

Belgium: University of Namur. Collaborative work has started on web services. Common publications.

Brazil: DiMAP, Federal University of Rio Grande do Norte: Collaboration around the data integration project in multi-clouds. Common publications.

China: SARI Shanghai Advanced Research Institute. Collaborative stay around the theme "Big Data Dynamic Storage management in distributed environment".

E.A.U: Scientific publications in common (see publications section) and co-supervision of trainees Research Master.

Tunisia: Projects and Co-supervision of students in Research Master and PhD with three different research laboratories and joint publications.

UK: Co-organization of conferences and project editing DS-08-2017 Privacy, Data Protection, Digital Identities in Hybrid Clouds with Staffordshire University.

USA:

- University of Michigan: joint publications and collaboration on the composition of web services and the preservation of confidentiality.
- New Mexico Tech Institute: Co-Chair of the Cloud and Distributed Computing Track.

Some National Collaborations

LAAS CNRS Toulouse, INP Tarbes, LIG Laboratory, LIUPPA lab @ University of PAU

Visiting professor and doctoral training seminars:

- **since 2017:** two weeks stay each year
 - "Resources Integration in multi-clouds" for the Research Master of the National School of Computer Sciences (ENSI). Tunisia.
 - "Management of Data, Services in Clouds environments: Issues, Challenges & Contributions" for the doctoral program of the University of Manouba. Tunisia.
- **2018 – 2019:** one month visiting prof at Staffordshire University, UK.
- **2022 & 2023:** 3 weeks stay each, teaching module and presenting research seminars on "Intelligent Data Integration and Processing on Service Based Environments: Issues, Challenges & Contributions" for Masters and PhD students at the University of Milan (June 2022, May 2023).

Organization of conferences and workshops

- **Member of the Steering Committee & sessions chair** of the International AICCSA conference since 2017
- **Program Chair** of the IEEE International Conference on Web Services (ICWS), 2022 ([CORE ranking A](#))
- **Track Co-chair of « Cloud as a Service »** @ IEEE INTERNATIONAL CONFERENCE ON CLOUD COMPUTING, SEPTEMBER 5-11, 2021 ([CORE ranking B](#))
- **Co-Chair du workshop Big data & smaRt hEAITH Systems (BREATHS)** - Données massives et systèmes de santé intelligents : problématiques, nouveaux défis et perspectives. 10 SEPTEMBRE 2019, Lyon. <https://iae.univ-lyon3.fr/atelier-de-recherche-donnees-massives-et-systemes-de-sante-intelligents-problematiques-nouveaux-defis-et-perspectives>
- **Women in STEM founder and Co-Chair** @ the ACS/IEEE International Conference on Computer Systems 2019, 2020 & 2021 (<http://www.aiccsa.net/AICCSA2020/tutorials-2>).
- **Workshop Chair** of FMEC 2020 & FMEC 2019: International Conference on Fog and Mobile Edge Computing (<https://emergingtechnet.org/FMEC2020/committee.php>)
- **Workshop Co-General Chair:** STRAPS on Smart daTa integRation And Processing on Service based environments, (2019, 2020, & 2021), en conjuncion avec la conférence internationale on Service Oriented Computing (ICSOC - [CORE ranking A](#)). (<https://straps-workshop.github.io/> ; <https://iae.univ-lyon3.fr/recherche-retour-sur-le-workshop-international-straps-2020-co-organise-par-chirine-ghedira-guegan-iaelyon>)

Recent International Scientific Productions & Publications

Teaching Areas: Teaching an average of 12 courses a year (including shifts) in French and/or English

- Business Process Management
- Data warehouses and Business Intelligence
- Distributed Information Systems
- Web services, security and Quality of Service
- Data integration and management
- Digital strategy for organizations
- ERP in the organization
- Enterprise Information Systems Architecture
- Technical infrastructures and application architectures
- Strategic urbanization of enterprise information systems

Educational Production

Educational materials:

- Urbanisation stratégique des systèmes d'information. 220 pages.
- Entrepôt de Données et BI. 120 pages.
- Les architectures applicatives. 110 pages.
